

Legacy Unlimited is an international leadership consulting community that provides individuals distinctive, life changing experiences to fully use their talents for the world. Our unique residential, Transformational Workshops, "Women Supporting Women"© (a women's only session) and "People Supporting People"© (a co-educational session), are designed to fully tap into the value, power, and possibilities of leadership and diversity.

"Women Supporting Women I"© and "People Supporting People I"© were piloted within the Procter & Gamble Company during a 14 year initiative. After which, Legacy Unlimited was selected as the exclusive supplier to deliver these premier leadership and diversity properties externally. These two properties are workshop interventions that transform group capability and diverse individuals to deliver profound results.

Legacy Unlimited has been asked to develop and launch the advance development and life course to continue the evolution and progress in empowerment, diversity, leadership and purposeful living. We are please to announce the next generation courses will be available first with "Women Supporting Women II"© offered May 1-4, 2007 in Quebec City.

These residential workshops are designed to deliver breakthrough business results and personal success by:

- Improving retention, productivity, sustainability and innovation,
- Institutionalizing deep caring and respect,
- Teaching leaders to value high performance, diversity, and inclusion,
- Developing a strong pool of diverse executives,
- Increasing local and global diversity knowledge, mastery and commitment in order to improve results and culture, and
- Positioning many to become great leaders.

"After 16 years with the company, this is by far one of the best investments I have made in myself with the highest potential payback to the company."

"The course changed my life! It makes me think differently!"

We invite you to share in these effective, unprecedented offerings that focus on **leadership, diversity, and creating your brilliant legacy. Partner with us to change the world!**
